(54) **Air bag cover and manufacturing method for same**

(57) An air bag cover and manufacturing method thereof wherein the air bag cover comprises a core member (11) which can be formed by injection molding, and a decorative sheet (12) disposed on the surface of the core member. The decorative sheet includes at least two layers, an outer layer (13) and a barrier layer (15) disposed on a back side of the outer layer to protect the outer layer when the core member is injection molded. The core member is made of thermoplastic elastomer which can be thermally fused to the barrier layer. A breakable portion (16) is provided in the barrier layer and core member.

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 96 10 9990

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
